- Zine Publisher
- DnD: Turtle Bard

PROFILE

Game Producer with a track record shipping commercial titles across teams of 2–20. I combine metrics-driven decisions with team-first leadership, keeping creative freedom intact within effective, accountable production workflows — with a history of running multiple live projects in parallel, from early prototyping through Steam launch and live-ops.

EXPERIENCE

Producer

STEAM · MAY '26 – PRESENT

Abyssal Guardians — Team of 7; Friend Slop Tactical Dungeon Crawler

- Restructured task organization and scheduling around a 2-week production cycle
- Grew the founding team from 5 to 7, onboarding new hires who joined alongside me
- Manage a rotating roster of freelance artists and audio designers, navigating scheduling conflicts to keep coverage consistent — including sourcing an audio designer who's been an outstanding fit for the team
- Supporting the public reveal and the start of the marketing push for the game

Producer

STEAM · APR – JUNE '26

Cowboy Life Simulator — Team of 17; Open World Cowboy Simulator

- Led a full migration of tasks from Jira to ClickUp for a 17-person team to cut tooling costs
- Hit tight publisher deadlines while concurrently resolving prior bugs alongside new feature work
- Facilitated outsourcing for voice actors

Producer Intern

STEAM · JAN – MARCH '26

Whimpact! — Team of 5; Critter Collector, Multiplayer Co-op Arena

- Strategized directly with the CEO on project direction and prioritization
- Organized and ran 3 structured playtests with ~5 players each to guide pre-launch prioritization
- Supported preparation and execution of the Steam launch for a new online multiplayer title

Producer and Designer

STEAM · JAN – JULY '25

Poly Plaza — Team of 2; Open World Landlord Simulator

- Doubled sales in 6 weeks by prioritizing and shipping backlog changes directly informed by player metrics
- Designed systems for stock trading and home upgrades
- Wrote quest lines for player immersion
- Collaborated with external vendors to add extra functionality for players

Producer and Designer

PROJECT-BASED · NOV '24 – JAN '25

Make a Friend — Team of 4; Turn-Based RPG + Chat App

- Led early-stage product design for games and software applications using agile methodologies
- Integrated AI tools into the workflow, tripling team efficiency
- Collaborated with cross-functional teams to deliver intuitive, accessible UI/UX
